The HJ510C addressing solution is a user-friendly, entry level system that prints full process photo quality color, making it perfect for high impact, low volume mailings. With the HJ510C you can produce professional envelopes, at a price you can afford.

Utilizing exclusive HP Photosmart® software and print technology to produce accurate colors, the HJ510C has photo realistic print quality that is unmatched. Its shuttle head design provides for a generous print area of 8.5" wide by 14" high where you can use a full array of colors and TrueType fonts to add attention-generating photos, graphics and logos. Economize your mailings by printing barcodes to meet postal pre-sorting guidelines. The HJ510C can print postcards, envelopes, flats and documents all in a single pass.

Addressing up to 4,000 No. 10 envelopes per hour, the HJ510C is the perfect printer for offices and small mail operations that don't have the volume to justify a large expenditure. The HJ510C is built with high-grade steel and metal construction to provide unsurpassed reliability.
