DELIVERING MAIL CENTER PRODUCTIVITY

IM480

Enhance Your Operations With An  
Intuitive Colorful Touch Screen

## IM480

### DELIVERING MAIL CENTER PRODUCTIVITY

Dynamic businesses count on smart productivity tools to do more than simply move the mail. The Hasler IM480 takes mail processing to a new level to meet your most demanding business needs.

Easy to operate and convenient to use, this system with whisper-quiet operations is fast and efficient. Plus, with the smallest footprint in its category, you'll appreciate the sleek ergonomic design that easily integrates into your business environment.

With the Hasler iMeter™ postage meter and powerful Apps to manage your business, the IM480 is ready to handle the challenges of your most demanding mailing requirements.

### FULL COLOR TOUCH SCREEN ENHANCES OPERATIONS

The full color touch screen minimizes keystrokes and puts even the casual operator in control with an easy-to-read dashboard overview. Smart functions and menu prompts help eliminate errors. The legendary Rate Wizard, last rates used, and shortcut keys save time when processing mail with the IM480.

### MIX IT UP

Eliminate the manual task of sorting mail by size, thickness, or weight. Simply Load 'n Go! Just place envelopes of various sizes and formats into the mixed-size, self-aligning feeder and press start. The IM480 can process and automatically seal up to 155 letters per minute. It's that easy!

### WEIGHING YOUR COSTS HAS NEVER BEEN FASTER

Dramatically reduce mail processing time and simplify operations with the Hasler Dynamic Scale. The patented four-point detection system automatically weighs and measures the full dimensions of your mail piece then categorizes and rates it in compliance with the USPS® Shape-Based Pricing regulations at speeds up to 90 letters per minute.

## INCREASED PRODUCTIVITY WITH DIFFERENTIAL WEIGHING

Process your mail quickly and easily. Weighing and rating your mail is fast and accurate when using Differential Weighing technology. Simply place all your mixed mail on the weighing platform, remove an envelope, and the correct rate is calculated automatically. And with "Smart Start", each time an envelope is removed, the IM480 is ready to process your mail.

## HASLER iMETER™ POSTAGE METER AND BUSINESS APPS

The Hasler iMeter™ postage meter is an internet connected smart device that provides functionality above the traditional postage meter. The IM480 and Hasler iMeter™ are connected online to help you better manage your mailing operations and control costs. Low ink email alerts keep you abreast of your ink usage and simplify ink cartridge reordering. With the IM480, postal rate changes are hassle-free thanks to direct rate downloads, which ensure full postal compliance.

## POSTAGE EXPENSE MANAGEMENT APPS – YOUR KEY TO SAVINGS

Take control of your postage expenses. From basic to advanced reporting, the IM480 offers a host of expandable Apps to meet the needs of your business. The Online Postal Expense Manager™ App provides postage usage trends by department, time period and postal class, which helps with budget planning. Reports can be viewed as graphical snapshots, and all postage usage data can be easily exported into Excel for additional analysis and reporting.

The Hasler Postal Accountant App delivers the detailed reports you need to track, analyze, allocate, forecast and consolidate your mail processing activity. Automatic alerts and the ability to set budget limits help you monitor costs and control overspending. Viewing and reporting can be done for a single location or an integrated multi-site enterprise.

## TRACK, CONFIRM AND SAVE

Using the E-Services with Electronic Return Receipt™ App, you will save money by applying USPS® discounted rates for eDelivery Confirmation™, eSignature Confirmation™, and eCertified with Electronic Return Receipt™. Email alerts and online access save time by helping you monitor, track, and confirm important items, while providing the most accurate data.

## WE'VE GOT YOU COVERED

Hasler customer support is there for you with nationwide factory-trained, USA-based technicians who are ready to assist. With the Remote Diagnostics App, our technicians are able to quickly analyze and troubleshoot any issues or concerns you may have, ensuring you sustain maximum uptime.
