

YOUR PAPER JOGGING SOLUTION

**ENHANCE PROCESSING PRODUCTIVITY BY ENSURING EFFICIENT PAPER HANDLING**

Businesses and organizations generate thousands of printed documents each year in a variety of shapes, sizes and styles. Hasler's HJOG Joggers are designed to ensure paper alignment and accurate feeding, whether through a stand-alone folder, folder/inserters, or other office equipment processing finished printed documents.

By aligning the paper, reducing static electricity and drying the ink created by the printer, Hasler's Jogger solutions ensure ultimate productivity when interacting with any of your paper processing equipment. That means the time previously spent on alignment and processing issues can be better spent on more valuable tasks.

Hasler's Jogger Series is available from a low-volume application, with a hopper capacity of 500 sheets, to a high-capacity air Jogger, with a hopper capacity of 940 sheets and use of jogging plus air. Whatever the application, Hasler has a jogger to ensure that your document processing moves faster, simpler and more efficiently.

HASLER
America's better choice.®

HJOG100 STANDARD FEATURES

Small footprint
User friendly
Holds up to 500 documents
Processes documents up to 8.5" x 11"

HJOG101 STANDARD FEATURES

Small footprint
User friendly
Holds up to 800 documents
